
Business overview

About us : A Software service provider in different Technologies with strong presence in Microsoft, MVC architecture, Next.JS/Angular/ReactJS, Python, PowerBI along with other recent open source. Mobile technology is portrayed as one of the main activity at OPUS. With global presence like US, UK, Saudi Arabia, Ghana, Nigeria, Malaysia, Philippines Brunei, Papa New Guinea, Indonesia OPUS is making all efforts to expand its territory in other countries as well. Though OPUS has a long list of products in the basket, we are now refining our marketing activities to few major revenue generating products like Campus Management, hospitality industry etc. To know more on products we offer, pl do click the link below

<http://www.opusinfiniti.com/ProductDownload.pdf>

Strengths : Over the years OPUS has gained the synergy to take head on with any competition be it domain, technology or technical expertise. With more than 50+ trained experts in these technologies, we are trying to reach out to every market. Through the experience gained while dealing with different vendors of the existing countries, local support and service has a cutting edge which can bring more revenues for the same effort put in. OPUS has decided to show a local presence in each market either directly or with a local partner of that country as conducive to the local law and business condition.

Objective

1. To expand globally with existing products and solutions
2. To develop a core team with exclusive competencies to take individual responsibilities
3. To bring in new players with strong financial background to share stake to Grow Further
4. To reframe marketing team who can reach out to different markets to bring in additional business
5. To establish a strong marketing team to proliferate our existing portals which have intrinsic revenue model

Growth and Collaboration

OPUS is committed to sustainable growth, shareholder value creation, and strategic partnerships. Our client-centric approach and recurring revenue model underpin our long-term value proposition. We invite angel investors, venture capital, and private equity to participate in our upside potential and scaling journey

Financial Highlights

- ❖ Recurring Revenue Model: Ensures predictable cash flows and supports valuation multiples.
- ❖ Scalable Solutions: Enable operational leverage and margin improvement as we grow.
- ❖ Market Diversification: Reduces concentration risk and supports revenue resilience.
- ❖ Strategic Partnerships: Drive distribution channels and market access.
- ❖ Innovation Pipeline: Supports future growth and competitive advantage.

*We are Growing as our Clients are Growing along with
our Partners who help us also*
